Hawkes Bay Area: David Boden 0274 490 6722

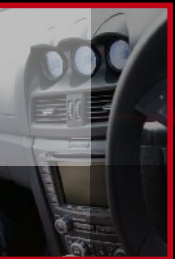

Wellington Area: David Palmer 021 410 115

Do you want to drive your HSV at over 200kph legally and not get a speeding ticket?

Do you want to attend timed track sprints, straight line drags and grasskhanas?

Do you want to keep up with the latest news from HSV's and aftermarket options?

Do you and your family want to enjoy cruises, BBQs and socialise with people and families with the same interests?

HSV *I just want one.*

www.hsvclub.com

Founded in 1994 by a small group of passionate HSV owners, the club has grown to more than 270 members.

The aim of the club is to bring together people and families who share this interest.

We are affiliated with Motorsport New Zealand and supported through a close relationship with Holden and HSV.

A committee is responsible for running the club, with area-coordinators organising events locally and monthly club meetings.

The club's chosen charity is Heart Children New Zealand and the club regularly donates through various fund raising activities.

Whilst it is the love of the cars that draws our members together, social activities, not necessarily car related, are also what the club is about. We are family based and orientated.

Each region has a monthly club night for all members with a guest speaker.

In addition we have a monthly newsletter to keep all members up-to-date on activities within the club and club events as well as our own range of apparel.

There are also visits to aftermarket performance and tuning workshops.

Each area organises and runs a monthly event, examples of which are:

- **Track sprints at Pukekohe, Taupo and Manfeild**
- **Grasskhanas**
- **Meremere Drags straight-line sprints**
- **Show-n-Shine events**
- **National Sprints**
- **Awards Nights**

There are also more family-friendly outings such as car cruises, go-kart, mini-golf challenges, and the like.
